

OAG Travel Planner Pro

The ultimate online travel and booking tool for your busy schedule

OAG Travel Planner Pro is the premier online tool for business and professional travelers who need to make, manage, and save complex travel plans quickly, easily, and at any time, right from your laptop. Plan and book travel without the worry of sifting through endless listings – Travel Planner Pro is customizable, so you'll only view information that pertains to your personal preferences.

Save time with OAG Travel Planner Pro, the complete online itinerary planning service for flights, hotels and more...all at your fingertips.

Product Features at a Glance:

- Lists every scheduled flight worldwide
- Rated hotels in nearly 14,000 cities
- Car rental listings
- 200 destination guides
- Pinpoint searches by preferred airline, hotel amenity and more
- Easy-to-compare results display

You as a business traveler, or professional travel arranger can now,

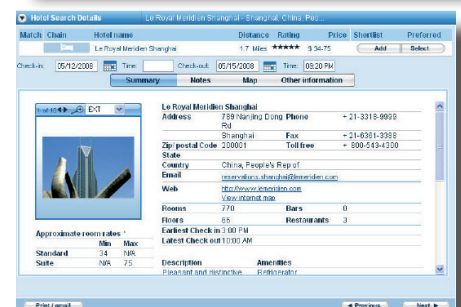

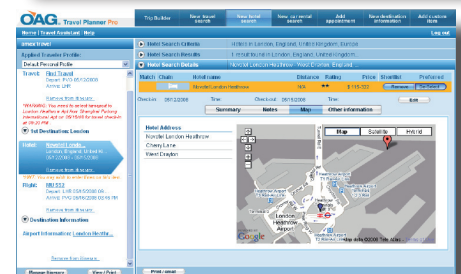

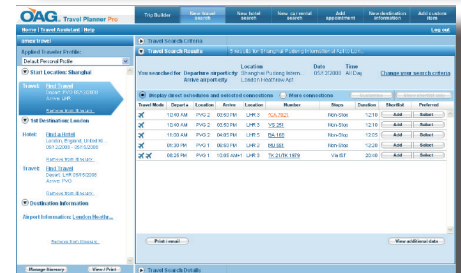

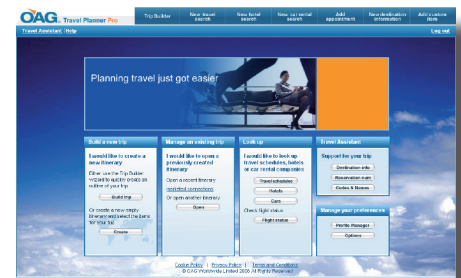

- Plan, book and manage multiple trip plans for multiple travelers, and
- Create highly complex itineraries in a very easy to use, intuitive and intelligent online environment

You can do everything from a simple look-up for flights, hotels, car rental, trains and destination information, right through the trip building and booking process, to checking flight status and printing off a full itinerary including your appointment details.

Highlights include,

- **Search results:** You can now create a shortlist of possible flights and hotels, which can be sent to the traveler for selection.
- **Trip Builder Wizard:** This brand new function allows you to quickly and easily build a skeleton itinerary which you can then populate. The Wizard guides you every step of the way as you search and add in flights, hotels, car rental, trains, boats and ferries. You can also include custom items such as buses, staying with friends, local restaurants and meetings during the trip.
- **Booking and Fulfilment:** You will now have immediate access to a fast and reliable booking and fulfilment service, wherever you are in the world.
- **Travel Assistant:** This feature provides additional information, and supports you to find reservation numbers, minimum connecting times, checking the status of a flight, and numerous other useful things for your complete itinerary.
- **PDF facility:** All itineraries, no matter how complex, can be output automatically to a standard template which can be exported as a PDF file for easy printing and emailing.
