Check-In Times Advisory

Passengers are encouraged to check-in a minimum of two hours prior to flight departure for domestic travel and three hours for international travel. This allows time for airline check-in, obtaining a boarding pass, and going through the security screening process, which includes screening of your carry-on baggage.

Flight Tracker Enables Search For A Flight

- Track a flight by flight number or by route (city pair)
- Track any flight in the system including connections and keeping your customers coming back to your website
- “By Route” allows customer to search for flights without knowing exactly which one they are searching for

The screenshot displays the Volaris Flight Tracker web interface. At the top, there's a navigation bar with the Volaris logo and a search icon. Below this, a 'Flight information' section is visible. The main content area is divided into two tabs: 'Flight Tracker' (active) and 'Destination Weather'. Under the 'Flight Tracker' tab, there's a 'Track by Flight' section with a 'Flight Number' input field (placeholder: 'enter a flight number') and a 'Date' dropdown menu (selected: 'Thu, Jun 1'). A 'Find Flight' button is positioned to the right. Below this is a 'Track by Route' section with 'Departure Airport' and 'Arrival Airport' dropdown menus (both with placeholder: 'Select an Airport...'), each followed by an 'or Airport Code' input field. A 'Date' dropdown menu (selected: 'Thu, Jun 1') and another 'Find Flight' button are at the bottom of this section. The OAG flightview logo is centered at the bottom, with a footer note stating: 'With the flight tracker get all the information you need before, during and after your trip. Flight information is derived from OAG flightview® data.'

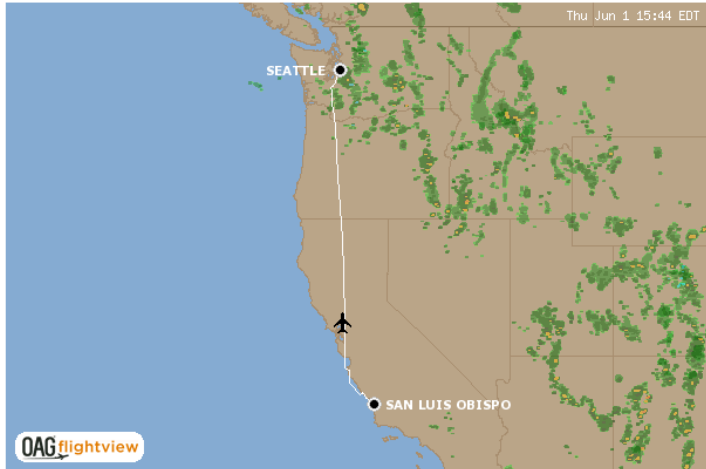

Flight Tracker Results Shows Important Flight Details

- View flight details including current status, code shares, scheduled/estimated/ actual departure and arrival times, terminal/gate assignments, baggage claim, aircraft type
- View in-air map with radar weather overlay
- Link from flights listed on Arrivals/Departures FIDS to these flight details for quick access

Homepage Integration – Mini FIDS

OAG[®]

- Integrate your airline FIDS into the homepage
- Fully interactive – Clicking on a flight will bring the user to the full flight information content page
- Place the most requested information right on the front page

The screenshot shows the homepage of Raleigh-Durham International Airport. At the top, there's a navigation bar with links for AIRLINE INFORMATION, MAPS & DIRECTIONS, PARKING, SHOPS & RESTAURANTS, GROUND TRANSPORTATION, TRAVEL INFO, and FEEDBACK. A search bar is also present. The main banner features a Frontier Airlines aircraft with the text "Frontier Returns April 2" and "Service to Penn. and N.J. via Trenton". Below the banner, there's a "Mini FIDS" table showing flight arrivals and departures. The table is divided into two sections: "ARRIVING/DEPARTING" and "NEWS". The "ARRIVING/DEPARTING" section includes links for Parking, Shopping and Dining, Find Your Gate, and Meet and Greet. The "NEWS" section includes links for Airfare Deals, Book a Flight, Featured Destinations, and Travel Tips. The "ARRIVALS" and "DEPARTURES" tables are highlighted with a red border.

Why Choose OAG's Responsive Web Components?

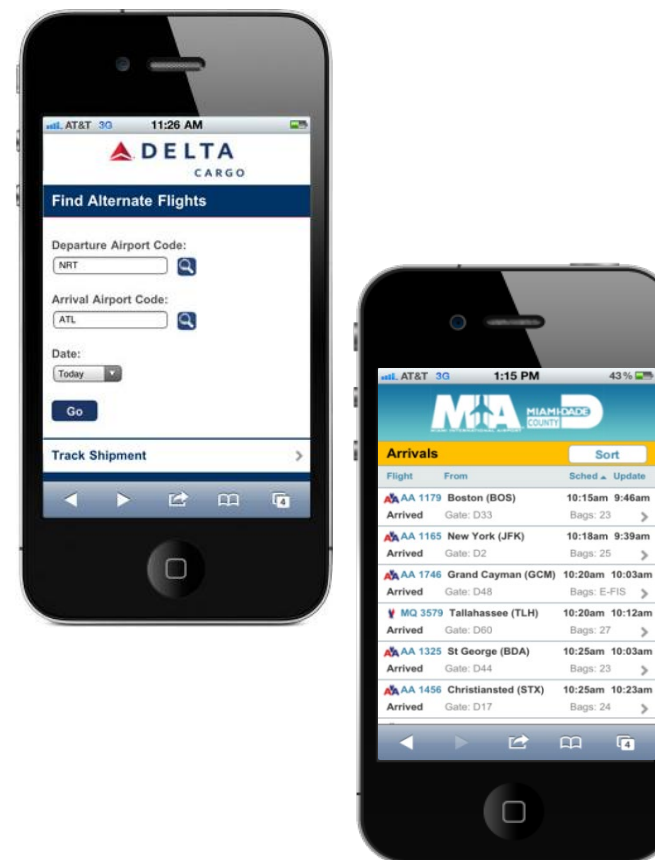

- Responsive web components ensure seamless experience across any device
- Available in many languages like German, French, Arabic, Spanish, Portuguese, Chinese, Japanese etc.
- Easy integration with the airline's website
- Customization to match the look and feel of the airline website
- OAG bears the majority of site traffic on our servers
- Measure web traffic through Google Analytics
- Cost effective alternative to 3rd party developer
- Lower maintenance over time

OAG Flightview's Core Competencies

OAG®

- **Experts on Travel Data**
 - Nuances, normalization & aggregation
- **Experience with Legacy Systems**
 - AODB systems, ARS systems
- **Repeatable White Label Solutions**
 - Replicate existing or new designs for seamless visual integration
- **Immersed in Travel Industry**
 - Pulse on needs of travelers & current industry solutions
- **Reliable and Scalable Service**
 - Production center serves over 400M requests each month with 99.95% uptime
