

Fast real-time schedule feeds and changes

Re-book and re-ticket as soon as airlines change their schedules

Avoid a number of re-bookings for reduced processing costs

Ensure sales distribution channels have the most up-to-date schedules for customer satisfaction

Be the first to receive any schedule changes for competitive advantage

Key features:

- Unique to OAG: Efficient, fast and accurate flight schedules updates
- Updates delivered in a choice of formats
- Flight schedule changes are delivered in real-time
- Instant synchronisation with airline schedule management systems
- Operating and non-operating (codeshare) flights included
- Customise feeds to meet specific business demands: tailor by service type, carrier and flight number / ranges

OAG and Ctrip sign a deal for China's leading online travel agency to use ground-breaking OAG Dynamic Schedules airline information system.

September 2014

OAG signs deal to provide Alitrip; Alibaba's online travel platform, with market-leading air travel data.

January 2016

Clients include:
