18.	Filler9	Character	3	96-98
19.	Cargo Service Types	Character	7	99-105
20.	Filler10	Character	7	106-112
21.	New General Code	Character	3	113-115
22.	Filler11	Character	2	116-117
23.	New Input Code	Character	3	118-120
24.	Filler12	Character	5	121-125

File Explanation

1. **General Aircraft Code**
General aircraft code is the IATA generic aircraft code used to describe one or more aircraft of a particular type.
2. **Filler1**
Blank or unused field.
3. **Specific Aircraft Code**
The specific (or input) aircraft code is the IATA specific aircraft codes.
4. **Filler2**
Blank or unused field.
5. **Aircraft Name**
Equipment name.
6. **Filler3**
Blank or unused field.
7. **Aircraft Type**
Type of equipment. (i.e. J = Jet, T = Turboprop, H = Helicopter, etc.)
8. **Filler4**
Blank or unused field.
9. **Aircraft Body Type**
Body type of the aircraft. (i.e. W = Wide, N = Narrow)
10. **Filler5**
Blank or unused field.
11. **Range**
Shows mileage.
12. **Filler6**
Blank or unused field.
13. **Speed**
Shows speed of the aircraft in miles per hour.
14. **Filler7**
Blank or unused field.
15. **Pax/Cargo Service Types**
Passenger and Cargo service types. (i.e. C = Business Class, F = Freight).

- 16. Filler8**
Blank or unused field.
- 17. Pax Only Service Types**
Passenger service types. (i.e. C = Business Class, Y = Economy Coach).
- 18. Filler9**
Blank or unused field.
- 19. Cargo Service Types**
Cargo service types only. (i.e. F = Freight).
- 20. Filler10**
Blank or unused field.
- 21. New General Code**
New general aircraft code, if applicable, this applies to aircraft codes that have changed.
- 22. Filler11**
Blank or unused field.
- 23. New Input Code**
New specific aircraft code, if applicable, this applies to aircraft codes that have changed.
- 24. Filler12**
Blank or unused field.
