BUSIEST ROUTES DECODED

OAG has been reporting on the world's busiest routes and their key metrics for a number of years now. In this year's version of Busiest Routes, OAG has taken the opportunity to expand on the categories to bring more insight into some of the world's most popular routes. Since preparing this year's report however, the Covid-19 pandemic has taken hold, having a significant impact on global aviation. For this reason, the 2020 version of Busiest Routes covers data for the calendar year 2019, establishing a baseline for analysis and recovery in the future.

New for this year:

- **Toughest** Routes with most competition
- **Longest** By nautical miles
- **Shortest** By nautical miles

Across all categories, carriers operating fewer than 360 scheduled flights per year on any route are excluded. For each category, the global Top 10 Domestic and Top 10 International routes are reported, and for each region.

BUSIEST

The busiest routes are defined as those with the largest volume of scheduled seats in 2019.

Top 10 Busiest Domestic Routes

- Nine of the Top 10 busiest domestic routes are in Asia Pacific.
- The busiest by some margin is Jeju (CJU) – Seoul (GMP) with 17 million annual seats, equivalent to around 48,000 on average each day. Jeju is a popular holiday destination for Koreans and although the flight from Seoul is relatively short, at 243nm (451km), as an island there are fewer other transport options for reaching it.
- Four of the Top 10 busiest domestic routes involve Tokyo's Haneda airport i.e. Haneda to Sapporo (CTS), Fukuoka (FUK), Okinawa (OKA) and Osaka Itami (ITM).
- Haneda (HND)-Osaka Itami (ITM) is the shortest of the Top 10 busiest domestic routes at 218nm (400km).
- Australia, China and India each have one route in the Top 10 busiest domestic routes.

Top 10 Busiest International Routes

- The busiest international route in 2019 was Hong Kong (HKG)-Taipei (TPE) with 8 million seats flown, equivalent to around 22,000 each day.
- All but one of the Top 10 busiest international routes are located in Asia Pacific with a cluster around Hong Kong (HKG), Singapore (SIN) and Bangkok (BKK). Four routes connect Hong Kong to other airports in Asia, three connect Singapore to other airports in Asia and three connect Bangkok to other airports in Asia.
- Kuala Lumpur (KUL)-Singapore (SIN) is the shortest of the Top 10 busiest international routes at just 160 nm (296 km).
- The only non-Asian route is New York JFK (JFK) - London Heathrow (LHR) which is also by far the longest of the Top 10 busiest international routes at 2991 nm (5563 km). It is ranked 8th despite the availability of alternative routes between a number of New York airports and a number of London airports.

TOUGHEST

The toughest routes have been defined as those where the operating airlines face the most competition from other airlines.

Top 10 Toughest Domestic Routes

- The most competitive domestic route in the world is Jinghong (JHG) to Kunming (KMG). With a distance of just 223 miles between these two cities, and no high speed rail alternative yet, 12 carriers operate 25 times per day.
- Seven of the Top 10 toughest routes are located in China and have between 9-12 airlines competing for passenger traffic. This reflects strong growth in the Chinese domestic market in recent years with many airlines competing for market share.
- Just one of the Top 10 busiest domestic routes appears in the Top 10 toughest domestic routes. Ranked tenth, the busiest domestic route in the world, Jeju (CJU) – Seoul Gimpo (GMP) has nine competing airlines.
- Two domestic routes in Iran make the global top 10 – in sixth place is Mashad (MHD)-Tehran (THR) and in eighth place is Ahwaz (AWZ) – Tehran (THR). Both routes have nine carriers operating.

Top 10 Toughest International Routes

- Three of the Top 10 toughest international routes also appear in the list of the Top 10 busiest international routes, showing that where there is a very strong market, or passenger demand, more international airlines are interested in operating. All three are located in South East Asia: Kuala Lumpur (KUL)-Singapore (SIN), Hong Kong (HKG) – Seoul Incheon (ICN) and Jakarta (CGK)-Kuala Lumpur (KUL).
- All ten of the toughest international routes operate to destinations within Asia. Routes average between 8-9 carriers.
- Four of the routes start or end at Seoul Incheon.

LONGEST

The longest routes are those with the greatest distance between the two points in nautical miles.

Top 10 Longest Domestic Routes

- Unsurprisingly the Top 10 longest domestic routes are located in the two geographically largest countries on Earth, the United States and the Russian Federation.
- All seven of the longest routes within the U.S. connect Hawaii to the Continental US, while the three Russian routes connect Moscow's Sheremetyevo Airport (SVO) to the far east of the country.

Top 10 Longest International Routes

- The Top 10 longest international routes range from as much as 8,277 nm down to 7,329 nm. With the distance from one side of the earth to the other around 10,800 nm (circumference is 21,639 nm) there may be few remaining large markets which cannot yet be served with non-stop flights.
- The longest international route is between Newark (EWR) and Singapore (SIN).
- There are three pairs of similar routes among the Top 10. These are Singapore (SIN) to Los Angeles (LAX) and San Francisco (SFO), Sydney (SYD) to Houston (IAH) and Dallas (DFW), and Auckland (AKL) to Doha (DOH) and Dubai (DXB).

SHORTEST

The shortest routes are those with the smallest distance between the two points in nautical miles.

Top 10 Shortest Domestic Routes

- The shortest domestic scheduled route in the world in 2019 was 23 nm (43 km). It was between the predominantly domestic Windhoek Eros Airport and the predominantly international Windhoek Hosea Kutako Airport. These operations ceased in July 2019, however.
- The second shortest domestic sector is between Petersburg (PSG) and Wrangell (WRG) in Alaska, an area without easy surface access but significant numbers of visitors. Average aircraft size is small.
- A number of the other routes in the Top 10 are also across water and include flights which connect parts of Cape Verde, Dar es Salaam to Zanzibar, Okinawa to a nearby island, and Hurghada to Sharm el-Sheik.
- The two largest of these shortest domestic routes are within the US; Allentown/Bethlehem/Easton (ABE) – Philadelphia (PHL) and Milwaukee (MKE) – Chicago O'Hare (ORD). Both are less than 60 miles (97 km).

Top 10 Shortest International Routes

- The shortest International route is between the capital cities of the Republic of Congo, (Brazzaville (BZV), and the Democratic Republic of Congo, Kinshasa N'Djili (FIH). These are the two closest capital cities in the world but separated by the Congo river. The airports are just 13 miles apart.
- A number of the other routes in the Top 10 shortest international routes are across water, including the 3 routes connecting Caribbean islands, as well as routes connecting Bahrain (BAH) and Dammam (DMM), as well as Helsinki (HEL) and Tallinn (TLL).
- The only European route in the Top 10 is ranked tenth and operates the 78 mile (145 km) route between Stuttgart (STR) and Zurich (ZRH).

ASIA PACIFIC

- The busiest domestic route in Asia Pacific is between Jeju (CJU) and Seoul Gimpo (GMP) with capacity averaging 335,000 seats each week in 2019.
- Hong Kong (HKG) – Taipei (TPE) is the busiest international route in the region with 153,000 seats each week on average.
- The importance of Hong Kong as an Asian hub airport is shown in the fact that six of the Top 10 busiest international routes have Hong Kong at one end of the route.
- While Singapore (SIN), Kuala Lumpur (KUL), Jakarta (CGK) and Bangkok (BKK) make multiple appearances among the Top 10 busiest international routes, some of the very large Asian airports – such as Beijing Capital Airport (PEK), Shanghai Pudong Airport (PVG), Guangzhou (CAN) and Tokyo Haneda Airport are noticeable by their absence.
- While the busiest routes, both domestic and international, are spread across the Pacific Rim, five of the longest domestic routes are located in China, with a further four in Australia. The longest domestic route is in Indonesia, from Jakarta to Jayapura, at a distance of 2,036 nautical miles.
- All of the Top 10 toughest international routes operate to destinations within Asia. On average the Top 10 toughest routes (International and Domestic) have nine airlines operating them. Daily frequency is very high, with carriers typically operating around 30 daily flights.
- The longest international route from an Asia Pacific airport is the route between Singapore (SIN) and New York Newark (EWR) at 8,277 nm.
- In all, eight of the Top 10 longest routes are to five airports in the United States – Newark (EWR), New York JFK (JFK), Dallas/Ft. Worth (DFW), Los Angeles (LAX) and San Francisco (SFO).
- The shortest domestic scheduled route in Asia Pacific is Okinawa (OKA) to Kume Jima (UEO), a flight of just 50 nautical miles. Like many of the other Top 10 shortest routes it connects two airports separated by sea.
- Ranked tenth, the route between Jammu (IXJ) and Srinagar (SXR) in India is just 77 miles but averages 14 daily operations.
- The shortest international route in the region is between Guangzhou (CAN) in China and Hong Kong (HKG) at just 73 miles.

EUROPE

- The route between Madrid (MAD) and Barcelona (BCN) in Spain is the single busiest scheduled route in Europe, with an average of 10,000 airline seats available every day, despite competition from the high speed "AVE" rail service which completes the journey in 2 hours and 30 minutes.
- Spain has a second route in the Top 10 busiest domestic routes with Barcelona (BCN) to Palma de Mallorca ranked 10th.
- Three of the Top 10 routes are located in Turkey, an indication of the strength of the domestic Turkish aviation.
- The busiest international route within Europe is the route between Dublin (DUB) in Ireland and London Heathrow (LHR).
- The strength of the London market is apparent in the fact that either London Heathrow (LHR) or London Gatwick (LGW) is at one end of half of the Top 10 international routes, with operations to Frankfurt, Amsterdam, New York and Barcelona, in addition to Dublin.
- Ranked 2nd, 3rd and 4th as busiest international routes is the triangle of routes connecting Stockholm Arlanda (ARN), Oslo Gardermoen (OSL) and Copenhagen Kastrup (CPH).
- The Top 10 toughest domestic routes in Europe all have four carriers operating them. Four of these operate in Spain, connecting the mainland with the Balearics and Canaries whilst a further three operate in Russia.
- Munich (MUC)- Palma (PMI) is the toughest international route with six carriers operating in 2019.
- The longest domestic route in Europe operates from Moscow Sheremetyevo (SVO) to Petropavlovsk (PKC) in the far east of Russia, a distance of 3,639 nautical miles from the capital.
- The longest international route from Europe is London Heathrow (LHR) to Perth (PER) at 7,829 nm.
- Seven of the Top 10 longest international routes are served with daily scheduled air operations but London Heathrow (LHR) to Singapore (SIN) has the highest frequency operation, with 7 daily frequencies.
- Six of the Top 10 shortest European routes provide service to islands, with four operating within the Balearics. The four routes not serving islands are located in central Europe, two in Germany, one in Denmark and one in Austria.
- The shortest scheduled international route in Europe is Helsinki (HEL) to Tallinn (TLL) which is 55 miles.

Longest International Routes

LATIN AMERICA

- The route between Bogota (BOG) and Medellin (MDE) in Colombia is the busiest domestic route in Latin America with over 15,000 scheduled seats every day on average.
- The busiest international route is between Lima (LIM) in Peru and Santiago (SCL) in Chile. The remaining Top 10 busiest international routes connect Brazil with Argentina and Chile, Argentina and Chile with Peru, Peru with Colombia, and Colombia with Panama, Costa Rica and Mexico.
- The route with most domestic competition is Cuzco (CUZ) to Lima (LIM), with seven different carriers operating 84 daily services between the two cities. Internationally, Buenos Aires (EZE) to Sao Paulo Guarulhos (GRU) is the toughest, with six carriers operating the route in 2019.
- Seven of the longest domestic routes in Latin America connect parts of Brazil, mainly coastal areas with cities far inland, although the longest route is between Santiago (SCL) and Easter Island (IPC).
- Eight of the longest international routes from Latin America are to cities and airports in Europe of which Santiago (SCL) to Paris (CDG) is the longest, although the Dubai (DXB) to Sao Paulo (GRU) is longer than any of them.
- The shortest domestic route in Latin America is between Cochabama (CBB), the culinary capital of Bolivia, and Oruro (ORU), a flight of 60 miles. The alternative is a 5-hour bus journey!
- The shortest international route connects the Caribbean islands of Bonaire (BON) and Curacao (CUR), which are just 40 miles apart.

MIDDLE EAST AND AFRICA

- The busiest domestic route in the Middle East and Africa is between Jeddah (JED) and Riyadh (RUH), with capacity averaging 22,000 seats each day. This is one of six routes located in Saudi Arabia among the Top 10 busiest domestic routes in the region.
- While Dubai (DXB) features in six of the Top 10 busiest international routes within the region, the busiest international route connects Cairo (CAI) and Jeddah (JED).
- None of the busiest international routes are in sub-Saharan Africa.
- Two of Iran's biggest domestic routes are also the toughest, with 9 carriers each operating from Tehran (THR) to Mashhad (MHD) and Ahwaz (AWZ).
- The shortest domestic route in the region connects the two Windhoek airports, a distance of 23 miles.
- The shortest international route is between Brazzaville (BZV) and Kinshasa N'Djili (FIH), only 13 miles apart but separated by the Congo River. There are plans to start work on a bridge across the Congo River which will connect the two cities later this year.
